

## Dawson Jarock Fund for Education in Paediatric Nephrology and Rheumatology

We are excited to announce a **Vasculitis Fellowship** in Paediatric Nephrology and Rheumatology at the University of Calgary, Alberta Children's Hospital located in Calgary, Alberta Canada.

The position is made possible by the generous donation of the Dawson Jarock Education fund for Paediatric Nephrology and Paediatric Rheumatology. The Jarock family has sponsored our yearly Vasculitis Symposium (2017 was the 6th annual event) and have committed to sponsor the fellowship program for at least the next 2-4 years.

Candidates should have formal training in Rheumatology or Nephrology. Application is open to all nationalities. The fellowship will be for 6 months up and/or to one year duration. It will be a combined clinical and research fellowship, expecting the candidate to perform a research project in vasculitis. There is ample opportunity to attend vasculitis clinics in both the adult and pediatric hospitals, including the joint rheumatology/nephrology clinics, the joint neurology/rheumatology clinics and the program can be slightly adjusted according to the interest of the candidate.

Successful completion of the training program will be recognized with a certificate issued by the University of Calgary, Section of Paediatric Nephrology.

Interested candidates should contact Dr. Lorraine Hamiwka ([lorraine.hamiwka@ahs.ca](mailto:lorraine.hamiwka@ahs.ca)) directly; cc'ing Pamela White, Program Administrator ([pamela.white@ahs.ca](mailto:pamela.white@ahs.ca)) and provide the following information:

- a) A letter of intent and expression of interest
- b) Current CV

Application deadline is January 31, 2018
